## ▶▶ Autotrans vehicle moving process

We pride ourselves on making the transport process simple and easy to understand every step of the way. To assist you in choosing Autotrans we list the following for your reference:

### Preparing your vehicle for transport

- ▶ Due to our high operating standards, please note that we do not transport goods in vehicles except for factory fitted items such as spare tyre, tools and books. Baby seats may also be left secured in vehicles.
- ▶ Empty of any personal items including internal compartments such as the glove box, CD stackers and portable GPS devices.
- ▶ Advise us if your vehicle has been externally modified such as lowering, roof racks or spoilers which may change the usual dimensions of the vehicle.

### Vehicle inspections

- ▶ Prior to transporting your vehicle, an Autotrans representative will conduct a Vehicle Condition Report. This inspection documents the condition of your vehicle prior to transport and is used as a reference at the time of collection / delivery.
- ▶ As a national transporter, all vehicles are subject to national quarantine laws and must be clean and free from any plant or animal matter both inside and outside the vehicle.

### Payment options

All bookings must be pre-paid prior to transport. We accept all major credit cards, EFT, bank cheque or money order and Eftpos (at depot locations only).
